

Make a simple time capsule

You will need

- 1 length of PVC sewer pipe ($\frac{1}{2}$ to 1 mt)
- Sewer pipe cap for bottom of capsule
- Sewer pipe joiner with screw and screwed cap to suit for easy opening
- Pipe joiner glue

(The above items are available at your local hardware store)

Don't forget to make a plaque With date to be opened and who the time capsule belongs to.

To Make

- Glue bottom cap to base of capsule
- Glue pipe joiner to top of capsule
- Fill with treasure you want people to see in 50 or 100 years time
- Seal with screwed cap
- PLANT** in ground

Brainstorm ideas for things to put in your time capsule. Some ideas include: Write messages, take photos, add items which represent 2010. Remember to try to focus on the theme **PLANT** for 2010. Keeping with the theme of eradicating poverty & hunger, you could include facts from 2010 about how to help feed hungry people in the world. These could be compared when opened with the way it is done then or if the work of 2010 has helped these people.

Why don't you ask some older Leaders in your Division who may know of a time capsule which may have been planted during the bi-centenary of Australia. It may be time to discover some hidden treasures!

How the World Thinking Day Fund will be used

For 2010 we are highlighting the difference Girl Guiding/Girl Scouting makes and the ways it challenges poverty in five countries*. The five countries, one from each of our regions are:

Haiti, Zimbabwe, Sudan, Georgia, Maldives

Through World Thinking Day you can learn about these countries and how Girl Guiding /Girl Scouting makes a difference for girls and young women. World Thinking Day money is used around the world and benefits all our Member Organizations. Each of the five countries in 2010 will receive a small grant from the World Thinking Day Fund for a project along the theme of 'Poverty' in order to offer more to girls.

The money spent in these five countries is just one example of how the World Thinking Day Fund bring more opportunities to girls and young women around the world. As in previous years, the Fund also supports other work that the World Association does to grow the Movement, develop leaders and make the voice of girls heard.

For more information on the Millinium Goal 1 – "End Poverty and Hunger" go to www.un.org/en/

For information about Haiti, Zimbabwe, Sudan, Georgia, Maldives: - try Googling each country or visit your Library or Multicultural Centre
